

# *Service Learning Team Expeditions*

Expeditions are an in depth look into one particular topic. Doulos students spend 8 weeks a semester on one expedition. Service Learning Teams spend one week on a Slice (mini expedition) which touches on all aspects of a full expedition.

## **ALL SLT EXPEDITIONS INCLUDE**

**Building Background Knowledge.** Initial investigation on the topic

**Expert meetings.** Time with experts working in the topic of study.

**Field Work.** Travel to sites directly related to the topic.

**Service.** Work alongside Doulos students to serve the community in a way related to the topic of study.

**Product.** Team members work together to create a product that will help to share their expedition with their community back home.

## **EXPEDITIONS CURRENTLY AVAILABLE FOR 2011 SERVICE LEARNING TEAMS**

### **Water**

Water quality, its direct connection with quality of life, and how to bring clean water to those who need it.

### **Education**

The impact of education in communities and its power to change lives.

### **Coffee and Biodiversity**

Farming practices and the connections between farmers, the environment, and consumers.

### **Coral Reef**

Learn the importance of coral reefs for island communities and the world.
